

Zoning Text Amendment No: 06-20
Concerning: Creating the
MXTC/TDR Zone
Draft No. & Date: 6/1/06
Introduced: June 13, 2006
Public Hearing: 7/18/06; 1:30 p.m.
Effective:
Ordinance No:

**COUNTY COUNCIL FOR MONTGOMERY COUNTY, MARYLAND
SITTING AS THE DISTRICT COUNCIL FOR THAT PORTION OF
THE MARYLAND-WASHINGTON REGIONAL DISTRICT WITHIN
MONTGOMERY COUNTY, MARYLAND**

By: District Council at the request of the Planning Board

AN AMENDMENT to the Montgomery County Zoning Ordinance for the purpose of:

- creating the Mixed-Use Town Center Zone/ Transferable Development Rights Zone; and
- generally amending the Mixed-Use Town Center Zone.

By amending the following section of the Montgomery County Zoning Ordinance,
Chapter 59 of the Montgomery County Code:

DIVISION 59-C-11	“MIXED-USE TOWN CENTER ZONE (MXTC)”
Section 59-C-11.1	“Where Applicable”
Section 59-C-11.3.1	“Site Plan Approval”
Section 59-C-11.4	“Permitted uses”
Section 59-C-11.5	“Development standards”
Section 59-C-11.5.1	“Street façade requirements”
Add new sections:	
Section 59-C-11.5.2	“Special regulations for development using transferable development rights in the MXTC/TDR zone”
Section 59-C-11.5.21	“Applicability”
Section 59-C-11.5.22	“General provisions”

EXPLANATION:

Boldface indicates a heading or a defined term.

Underlining indicates text that is added to existing laws by the original text amendment.

[Single boldface brackets] indicate text that is deleted from existing law by the original text amendment.

Double underlining indicates text that is added to the text amendment by amendment.
[[Double boldface brackets]] indicate text that is deleted from the text amendment by amendment.

* * * indicates existing law unaffected by the text amendment.

ORDINANCE

The County Council for Montgomery County, Maryland, sitting as the District Council for that portion of the Maryland-Washington Regional District in Montgomery County, Maryland, approves the following ordinance:

1 Sec. 1. DIVISION 59-C-11 is amended as follows:

2 DIVISION 59-C-11. MIXED-USE TOWN CENTER ZONE (MXTC) and
3 MIXED-USE TOWN CENTER / TRANSFERABLE DEVELOPMENT
4 RIGHTS ZONE (MXTC/TDR).

5 59-C-11.1. Where Applicable.

6 No land may be classified in the MXTC zone or MXTC/TDR zone unless
7 recommended in an approved and adopted master or sector plan.

8
9 59-C-11.2. New construction, re-use of existing building, remodeling and
10 reconstruction.

11 Any lawful structure or building that existed before the applicable Sectional
12 Map Amendment adoption date, is a conforming structure and may be
13 continued, structurally altered, repaired, renovated or enlarged up to 10 percent
14 of the gross building floor area or 10,000 square feet, whichever is less.
15 However, any enlargement of the building that is more than 10 percent of the
16 gross floor area or 10,000 square feet, or construction of a new building must
17 comply with the standards of the MXTC zone or MXTC/TDR zone as
18 applicable.

19
20 59-C-11.3. Methods of Development.

21 Two methods of development are available under the MXTC zone or
22 MXTC/TDR zone.

23 (a) Standard Method.

24 A standard method project must comply with the applicable development
25 requirements of 59-C-11.5 and the recommendations of the applicable master
26 or sector plan. If residential uses are included in a development, moderately
27 priced dwelling units must be provided in accordance with Chapter 25A. The

maximum dwelling unit density or residential FAR may be increased in proportion to any MPDU density bonus provided on-site.

(b) Optional Method.

Under the optional method of development, building height, and density levels greater than allowed under the standard method of development may be achieved for increased public use space. An optional method development must comply with the applicable development requirements of 59-C-11.5 and the recommendations of the applicable master or sector plan. If residential uses are included in a development, moderately priced dwelling units must be provided in accordance with Chapter 25A. The maximum dwelling unit density or residential FAR may be increased in proportion to any MPDU density bonus provided on site.

In the MXTC/TDR zone, residential density above that allowed under the standard method must use transferred development rights and must follow the special regulations of 59-C-11.5.2.

59-C-11.3.1. Site Plan Approval.

For the MXTC zone and the MXTC/TDR zone, [S] site plan approval is required for:

1. A standard method development project that includes:
 - a. a net lot area of five acres or more;
 - b. certain uses with more than 20,000 square feet for each establishment as specified in Sec. 59-C-11.4;
 - c. a modification of the maximum front setback or the street facade requirements; or

d. a recommendation for site plan review in the applicable master or sector plan.

2. All optional method development projects. For an optional method development project, the Board must find that the proposed development:

- e. conforms to recommendations of the applicable approved and adopted master or sector plan;
- f. is not detrimental to any existing development due to the size, intensity, design, scale and operational characteristics of its uses;
- g. satisfies the public use space requirements of the zone;
- h. takes maximum advantage of the topography, vistas, façade articulation, and other urban design elements to create an attractive physical environment;
- i. provides adequate linkages among different functions or structures, open areas, public amenities, parking, and adjoining properties and streets, and
- j. provides adequate parking and loading service areas with appropriate landscaping, screening, and lighting that will not adversely affect adjoining neighborhoods.

59-C-11.4. Permitted uses.

77 7 Allowed only if recommended in a master or sector plan.

78 8 A drive-up bank or drive-in window for a bank must be approved by
79 special exception, subject to the general requirements of Section 59-G-1.

80 **59-C-11.5. Development standards.**

Development standards applicable to the standard and optional method development for the MXTC zone and the MXTC/TDR zone are indicated by the letters “S” and “O”.

		S	O
1	Maximum residential density (units/acre)	8	20 ¹
2	Maximum non-residential FAR	0.35	1.0 ¹
3	Maximum Building height	42 <u>feet</u>	70 <u>feet</u> ¹
4	Minimum public use space		
	For lots of up to 40,000 sf:	10% ³	10% ³
	For lots of more than 40,000 sf:	10% ³	20% ³
5	Building setbacks: ⁴		
	Minimum front setback (feet)	0	0
	Maximum front setback (feet) from a street line	10 ²	10 ²
	Minimum side or rear setback from another lot in the same zone, or from an adjacent commercial zone (feet)	0	0
	Minimum side or rear setback from an adjacent residential zone (feet)	20	20

1. A master or sector plan may recommend a building height or density limit up to the maximum of the zone, and the appropriate mix of commercial, residential, and light industrial uses. Notwithstanding any building height limitation recommended in a master plan or sector plan, the Planning Board may further limit the maximum allowable building height to achieve compatibility with surrounding land uses. However, the Planning Board may waive any height limit established in a master or sector plan, up to the maximum allowed in the zone, if expressly recommended in the applicable master or sector plan. In the MXTC\TDR zone, residential density above the

standard method must use transferred development rights and follow the special regulations in 59-C-11.5.2.

2. The Planning Board may allow a front setback from the public right-of-way greater than 10 feet subject to site plan review and the street façade controls of the MXTC zone. Setbacks from the curb must be of sufficient width to provide for streetscape and adequate sidewalk space for pedestrians.
3. Public use space may be provided indoors or outdoors, and must conform to master or sector plan recommendations. Development on lots of up to 40,000 square feet may provide a portion or all of the required public use space as green area. Development on lots of more than 40,000 square feet must not provide all of the required public use space as green area. However, the Planning Board may waive setback requirements if expressly recommended in a master or sector plan.
4. The Planning Board may waive setback requirements if expressly recommended in a master or sector plan.

59-C-11.5.1. Street façade requirements for the MXTC zone and MXTC/TDR zone.

1. Any development [under the MXTC zone] must provide at least one street facade for a minimum of 75 percent of the lot frontage along a street or other publicly accessible sidewalk, way or space. The street facade must be located within 10 feet of: 1) the front lot line or; 2) the public use space along a street or other publicly accessible sidewalk, way or space.

2. The ground floor portion of any street facade in a non-residential development must have windows and principal entrances to stores and retail establishments from the adjoining sidewalk or public use space.

Off-street parking structures, if located along required street facades, must have retail or other pedestrian-oriented uses at the ground floor level fronting the street with direct access to the sidewalk or a public use space.

3. The Planning Board may modify a street facade requirement including the location or the minimum length of a required street facade during site plan review to achieve the objectives of the applicable master or sector plan. For lots with more than one street frontage, the Planning Board may establish which side would be subject to the street facade requirements during site plan review based on a layout that best achieves pedestrian oriented streets.

59-C-11.5.2 Special regulations for development using transferable development rights in the MXTC/TDR zone.

59-C-11.5.21 Applicability. The following procedures and regulations apply to the transfer of development rights to land classified in a MXTC/TDR zone. The Planning Board may approve subdivision of such land at densities not to exceed the maximum density permitted in the applicable MXTC/TDR zone and conforming to the guidelines contained in the applicable master or sector plan. Any increase in dwelling units per acre allowed under the standard method of development of 59-C-11.5 must be based on a ratio of one single-family dwelling unit for each TDR, and 2 multi-family dwelling units for each TDR.

59-C-11.5.22 General provisions.

(a) A development right must be created, transferred and extinguished only by means of documents in a recordable form approved by the Planning Board, including an easement and appropriate releases. The easement

149 must limit the future construction of one-family dwellings on a property
150 in the RDT zone to the total number of development rights established
151 by the zoning of the property minus all development rights previously
152 transferred in accordance with this section, the number of development
153 rights to be transferred by the instant transaction, and the number of
154 existing one-family detached dwellings on the property.

155
156 (b) The transfer of development rights must be recorded among the land
157 records of Montgomery County, Maryland.

158
159 (c) A property developed under a MXTC/TDR zone must conform to the
160 requirements of Chapter 25A requiring MPDU's.

161
162 **Sec. 59-C-11.6. Off-Street Parking for the MXTC zone and MXTC/TDR zone.**

163
164 * * *

165
166 59-C-11.6.1. Internal connection between parking lots for the MXTC zone and
167 MXTC/TDR zone.

168 Any new developments pursuant to this zone must provide for a pedestrian and
169 vehicular connection to existing and proposed parking areas on at least one
170 adjoining lot where feasible. The Planning Board may modify this requirement
171 during site plan review if the applicant demonstrates that compliance with this
172 requirement is not feasible or that compliance with the requirement would
173 preclude the lot from meeting the off-street parking requirements on site. The
174 Director may modify this requirement for projects not subject to site plan
175 review.

177 **Sec. 2. Effective date.** This ordinance takes effect 20 days after the date of
178 Council adoption.

179
